ABOUT OUR COMPANY

OMNI Software Group, owned the trademark ArielONE, has evolved over the last 20 years satisfying Scrap Metal Dealers, from small owner/operator yards to exceptionally large statewide – multi-branch operations that have sophisticated needs in inventory, financial, and regulatory reporting, as well as supporting those companies that go through year-end financial audits. Our software performance was developed in a sophisticated industry and proven to be a valuable backbone to any financial operation.

WHY CHOOSE US?

ArielONE delivers a comprehensive and customizable platform designed for metal recycling businesses, automating tasks like scale readings, inventory management, and trucking dispatch. This user-friendly web app supports operations of any scale, enhancing efficiency with features like detailed financial reporting and end-of-day reconciliations, allowing you to focus more on running your business.

WHAT ArielONE CAN DO?

PURCHASING
Our system streamlines scrap transactions with automated data capture, camera control, multiple payment options, and reports for easy reconciliation and inventory updates.

SHIPPING & SALES
Our automated system streamlines shipping, from contract handling to document generation, seamlessly integrating invoicing and financial reporting.

INVENTORY MANAGEMENT
Inventory updates automatically with purchases and sales, offering various reports and real-time updates to the Cost of Goods Sold, with the flexibility to add new commodities instantly.

OPERATIONAL EFFICIENCY
Our managerial review system includes a Cashier's Control Panel for accurate data entry, flexible scale master controls, embedded commodity images for verification, and traceable cost of goods sold reports.

SECURE TECHNOLOGY
ArielONE Software offers customizable user access levels, governs transaction limits, and automates policy adherence across various operational aspects.

INTEGRATED ACCOUNTING
ArielONE generates customizable cashier's accounting reports and ledger entries for integration into automated general ledger systems, adaptable to daily, weekly, or semi-monthly intervals based on customer preference and transaction activity.

SPANISH/ENGLISH VERSION
ArielONE is a bilingual software, available in both English and Spanish, allow users to instantly switch languages for ease of use and report generation, catering to Spanish-speaking clients, with additional currency conversion options.

SINGLE/MULTI LOCATION
Our automated system is 100% capable of handling single or multiple location.

WHY CHOOSE US? (diagram)

- **INCREASED EFFICIENCY** (performance and affordability)
- **INCREASED ACCURACY** (and reinforces internal control)
- **SUPPORTS SAME-DAY PAYOUTS** (attracts suppliers)
- **SIMPLIFIED REPORTING** (state and federal)
- **MULTI-LANGUAGE** (international implications)

Streamlining your Metal Recycling Business to bring efficiency to the next level!

TALK TO US:

You are invited to call and inquire and even take ArielONE for a "test drive" as we have a cloud-based server ready to provide a real-time demonstration in the privacy of your office. You may call and inquire as to our adaptability into your system, and answer questions as to customization and affordability.

Industry Proven... Industry Grown!
